Education

B. Tech - Artificial Intelligence And Data Science, KGISL INSTITUTE OF TECHNOLOGY CGPA:7.5	2023 – 2027 Coimbatore, India
--	----------------------------------

Higher Secondary Computer Science, GEETHANJALEE MATRICLUATION HR SEC SCHOOL Percentage:72%	2021 – 2023 Coimbatore, India
--	----------------------------------

Skills

Programming Languages

Python, HTML, CSS, JavaScript, Reactjs

Web Development

Responsive Web Design, Frontend
Development, Version Control (Git, GitHub)

Soft Skills

Problem Solving, Team Collaboration, Critical
Thinking, Time Management, Continuous
Learning

DataScience&Analytics

NumPy, Pandas, Matplotlib, Seaborn,
Data Cleaning & Visualization,
Exploratory Data Analysis (EDA)

Tools&Platforms

Visual Studio Code (VS Code), Google Colab

Work Experience

React JS Intern , ACCENT TECHNO SOFT (ATS) (1 Month)React.js JavaScript HTML5 CSS3	June 2025 – July 2025 Coimbatore, India
--	--

Completed React.js training at an ISO 9001:2015 certified organization, gaining hands-on experience in developing component-based user interfaces using props, state management, and React Hooks.

Projects

Responsive Web Application

(Developer) HTML5 | CSS3 | Bootstrap | Flexbox

- Developed a responsive blog-style landing page using HTML, CSS, Bootstrap, and the Acrostia template, creating reusable components for Services, Portfolio, and Contact sections.
- Optimized responsiveness with Flexbox and media queries, ensuring seamless performance across devices while maintaining a consistent and modular UI design.

Live Chat Application

(Developer) React.js | Node.js | Express.js | Socket.IO | CSS3

- Developed a full-stack real-time chat application using React.js, Node.js, Express.js, and Socket.IO, enabling instant bidirectional messaging between multiple users.
- Designed a responsive chat interface with emoji support and implemented a scalable client-server architecture for maintainability and performance.

CyberQuest — Cyber Safety Learning Platform

(Team Lead) HTML5 | CSS3 | JavaScript | Role-Based Access Control

- Led the development of a gamified cybersecurity awareness web application, implementing role-based portals (Student, Teacher, Admin), interactive dashboards, and mission-driven learning with XP and leaderboard systems.
- Designed a responsive, scalable frontend with matrix-animation landing pages, modular architecture, and optimized asset management to ensure maintainability and seamless updates.
